OBJECTIVE

To utilize my knowledge of Java and MERN stack, along with modern web development skills, to create practical, efficient, and scalable software solutions. I aim to continuously enhance my problem solving and full-stack development abilities while contributing effectively to collaborative and innovative projects.

EDUCATION

Technocrats Institute of Technology, Bhopal
B.Tech in Computer Science with AIML **CGPA: 7.81/10**

Sep 2022 – Jul 2026 (Expected)

Excellence Higher Secondary School, Begumganj
Class XII **Percentage: 88.4%**

2021 – 2022

PROJECTS

AI-Powered Code Reviewer

Jan 2025

- Developed a real-time code review platform integrating **Gemini AI** to analyze and suggest improvements for source code.
- Built a custom syntax-highlighted code editor using **React.js**, supporting multiple languages and smooth UX.
- Designed and implemented secure **RESTful APIs** to process code, manage user sessions, and handle AI interactions.
- Used **MongoDB** for persistent storage of user queries, AI feedback.
- Delivered a responsive, accessible UI with cross-device compatibility and real-time analysis feedback.

StayNest – Vacation Rental Platform

May 2025

- Developed a vacation rental platform enabling users to **list, discover, and book properties**.
- Implemented a responsive **React.js** frontend with **Context API** for Data Centralization and **Axios** for API requests.
- Built a backend using **Express.js** and **MongoDB**, managing authentication, user profiles, bookings, and property data.
- Integrated **Razorpay** for payment processing and **Nodemailer** for booking confirmations.
- Focused on a mobile-first UI with intuitive navigation and a secure, end-to-end booking workflow.

ScanDine – Smart QR-Based Digital Menu Platform

Jul 2025

- Built a digital platform turning restaurant menus into **mobile-friendly QR-based experiences**, enhancing accessibility and hygiene.
- Designed a secure backend with **Node.js**, **Express.js**, **MongoDB**, featuring independent **Redis caching** for performance.
- Developed **Authentication with OTP verification**, enabling secure sign-up/login and account validation.
- Enabled cafes to manage menus with **images, categories, and chef specials**, plus automated emails via **Nodemailer**.
- Delivered a responsive **React + Tailwind** frontend, deployed on **Vercel/Render** with SPA routing support.

SKILLS

- **Language:** Java
- **Web Development:** HTML5, CSS, JavaScript, Responsive Design
- **Frameworks:** React.js, Node.js, Express.js, Tailwind CSS, GSAP
- **Database:** MongoDB
- **Tools:** WebSocket, Git, GitHub, Postman

ACHIEVEMENTS

- Solved **100+** DSA problems on LeetCode and TUF.
- Participated in **InnoVenture 2024 Hackathon**, showcasing innovative problem solving and active collaboration on real-world tech challenges.

CERTIFICATIONS

- Full Stack Web Development – Sheryians Coding School
- React Developer Certificate – Sheryians Coding School
- Machine Learning Training – Internshala
